# When was the last time you reviewed your business finances?

In Australia over 90% of finance arrangements are structured between businesses and their banks direct.

In the past few years a more effective model has entered the market – the independent professional broker, who works on your behalf and uses their extensive buying power to negotiate better deals and rates.

At Charter Capital Finance we've taken this model one step further and operate a system that provides multiple options for your selection.

Our direct banking experience means we know how to obtain the best possible outcomes for our clients.

We have also developed a unique 10-point Debt Health Check to ensure your finances are as efficient as possible.

The combination of our banking experience, extended level of services and operation of the Debt Health Check model means you can access and benefit from our services at any time.

We're committed to serving the needs of our clients.

You only need to invest an hour of your time for us to review your financing arrangements. We will advise you of time and cost savings we've identified and a detailed action plan to achieve them.

***Let us take your finance to the market.***

***We guarantee you'll profit from the experience.***
